The history of success during the late 20th century
which formed the 21st centuries leaders of self betterment

KNOLL HOUSE INTERFORUM.COM

At its outset the story which formed this company was the amazing success of just one man in small business, in fact the small business he created became many more small businesses and to be able to record trading in so many different fields required a number of different book-keeping systems, each of which required a name under which to operate. Therefore rather than using variations of his own name Reginald Gee chose to use a variation of titles which were based on the name of his large country house. These numerous small businesses being easily referred to as the Knoll House Group which tied their book-keeping systems together for auditing and banking purposes, etc.

The level of achievement came to the attention of Mr Donald Moore who at the time was the editor and publisher of the Entrepreneur Magazine in Alston, Cumbria. Donald Moore, after several meetings with Mr Gee persuaded him to write a number of articles for the publication, the result of these publications pushed Mr Gee not only into the public eye in the world of self employment and self betterment but created a huge amount of daily mail delivery to both Mr Moore and Mr Gee. This in turn lead to Mr Gee writing several books each on the topic of his successful businesses, which again in turn resulted in a considerable demand for public appearances which of course became termed the seminar's which would allow people to see for themselves not only to learn the techniques of these businesses but to learn the skills from the man who conceived them and how his outlook towards such success could be learnt by all. To which end Reginald Gee Snr Limited was formed and operated with amazing success until Mr Gee's retirement almost twenty years later.

Into the story at this time enters Mr Lee Wood one of Reginald Gee Snr Limited's most successful students who by many letters and numerous personal visits to Mr Gee persuades him that through the visual world of technology and coupled with the internet rather than retirement which only translates to boredom anyway we should form Knoll House Interforum, not only to retell these fine business systems and their potential but also to tell the many success stories of the individual's who made their fortunes with them so that others may once again do the same.

What now follows as this e-book is the visual transcription of a multi-page booklet put out by Reginald Gee Snr Limited which was written with the main text on the right hand facing page and decorated with unsolicited testimonials from past students and those attending seminars on the left page, for easy recognition and reading this format the main text is now shown in black, the comments of past students, their unsolicited testimonials in blue, with our update shown as you can see in red.

Reginald Gee Snr Limited was formed in 1982 with one single purpose as its goal, that being the teaching of others through self-employment to follow closely in my personal steps to financial success. Since the early 1960's I have been self-employed and conducted a multitude of small businesses, that is to say — small in the sense of the size of the companies and numbers employed, but not necessarily small in the amount of monies turned over and earnings realised, in fact, certain of the businesses employing only myself. It was not until 1982 when I came to realise that my success was the envy of literally everyone I knew and only by coming into contact with various people at the time in the business opportunities world did I realise that what I could offer by way of teaching from my personal past constituted better business opportunities than anything else on the market.

Since the original formation of the company much time has passed and certain phrases, words and sentences are now no longer fashionable. In the original concept of the company I chose to give myself a title, that being 'Mr Salesmanship' simply because I liked it, it appealed to me and, to be completely truthful, it satisfied my ego. Although the seminars conducted by the company are expressly on the topic of self-betterment commencing as a single person operation, I chose to call the seminars "Meet 'Mr Salesmanship' Seminars". Over the years we found that in some quarters this created a problem, many thought that the seminars were all about selling and salesmanship and, although this was not the case, it remained a problem.

SCHOOL FOR WINNERS

Since the beginning of time the world of human beings has fallen quite distinctly into two categories — not just that of men and women — no, that's a mere superficial division, much more important is the true separation, that being — winners and losers — those busy going somewhere and those busy going nowhere — top people and underdogs. Those who will and those who won't — those who can and those who can't, in short, those who want to learn go and join the winners, those who can't be bothered — spend the rest of their lives moaning their lot, living in envy of the winners who seem to have it all such people are often heard saying, "It's not fair". All of these losers have the same mental thoughts in common and, that is, they believe success is something you find by accident or by being 'lucky' and usually no amount of education can ever convince them otherwise — yet the truth is that success is readily available to all men and women — young and old — short and slim — fat and tall.

BUSINESS OPPORTUNITIES

Obviously, you are a seeker of business opportunities, you wouldn't have applied to receive this letter if you were not and I am quite sure that you have already written for several other business opportunities only to find what a terrific amount of junk litters this enormous market. Business opportunity advertising in famous magazines and on the internet is now one of their biggest sections and, in fact, there are countless small home produced magazines and online auctions for no other subject. If you have not already written or applied for a few of these, I invite you to do so in order that you may see the rubbish for yourself.

After doing this you will realise that there are considerable difficulties in locating a true business opportunity, but there is one thing that I can assure you of right now and that is, this time you have done it — if you can see it.

Many of you reading this letter will have tried multi-level marketing propositions only to find that they require an enormous amount of work for little or no return and that you have to spend time running round implicating others who don't want to know at any price.

On this subject I could speak forever, hundreds of my students have told me endless stories of disappointment throughout all of these so-called opportunities. I will just say that in all the years I have conducted my self-employment schools, I have not yet had one single failure from those who have tried correctly.

What I am about to tell you could be a considerable surprise, most likely you have never given a single thought to the subject and yet I know definitely that it can be your salvation — I want you to consider a career or a profession as a Wheeler Dealer. Let's take a moment to look at the fact — it's a trade that you will never find on the dole, wheeler dealers are never unemployed, the opposite is actually the case — as there are more people on the dole without jobs, more opportunities are created for the wheeler dealer — this will be explained in more detail during the school/seminar.

A short look into history will readily show how important to the evolution of the world wheeler dealers are, the huge role they have played in the creation of modern life and in the creation of the world's wealth.

THE WHEELER DEALERS — HEROES

It is probably a little considered fact that the world's greatest heroes came from the ranks of the wheeler dealers of their time. Originally, self-employed men who didn't spend time watching 'telly', they got up, went out and did something and due to what they did it opened other doors, showed them further avenues and all of a sudden they became known as 'adventurers'. Marco Polo was one such man, he did not go round the world in search of discovery, fame and fortune, he was a trader, the first man to bring silks from Cathay — the then name for China — yet we all learned about him at school as a discoverer. It's a strange thing, but any form of self-dependency

was never once taught at school, never once was it mentioned that you could become your own little Marco Polo by doing something for yourself as a form of self-employment.

The first men who went to India didn't go with armies, rifles and weapons of warfare, they went with trade goods, a few self-starters put themselves out and went to an unknown land, they started a little company which they called the East India Company which grew until it became the largest commercial concern in the world in its time. These men were not conquerors, they were wheeler dealers. In the days of sailing ships, winds that blew in an almost invariable specific direction were referred to as 'trade winds' because they carried ships doing business. Countries and continents have been discovered by traders, the first liaisons between unknown peoples have been trade, explorers carried with them beads to trade with the Indians, the whole world became smaller through trade more than any other reason. A simple trip to your local supermarket will show these facts, goods, fruits and produce from all over the world are available to you because someone has known that to wheel and deal these products to new markets will return profits; and when eventually mankind walks on other habited planets, the first stages of proving peaceful intention will be by trade.

On a more up to date level, many television programmes today feature traders, even the 'soaps' have their particular hero who is the trader, the businessman, the employer of others. Make no mistake, even though you were not shown at school or since, the true unsung hero of the world is the wheeler dealer, he brought back the potato from America, tea from China and silks from India. In short, the world was opened up by traders, wheeler dealers not mouthy politicians. On a more every day basis, he trots around his town making a very nice living while all around him bemoan their lot and end up sending for daft business opportunities.

THE SCHOOL FOR WHEELER DEALERS

My school, that is to say my seminar, in just one day will teach you how to wheel and deal, that does not merely mean to buy and to sell — no, there is far more to it than that — I show you how to recognise a good deal from a poor one, how to involve others doing the hard work and the menial tasks whilst you control your castle and collect payment. I show you how easy it is to become known for what you are doing and how people come looking for you to do business because you are the king! This is only a small part of my seminar, many of those who have already attended have described it as the most dynamic day of their lives, my files bulge with unsolicited testimonials from people who have already attended, many send regular letters of progress describing their now common-place earnings, some of their stories I will tell you briefly in later pages.

I suppose by now it's a fair question if you should ask, "Why are you doing it?". The answer is so simple, but you may find it hard to believe, which is — I like it.

PETER DAVEY, MAIDSTONE — "I had to write and tell you how much I enjoyed the seminar, so entertaining, thought provoking and I feel I shall profit from what I learnt for years to come."

JAMES O'NEIL, LUTON — "Fabulous literature for accumulating financial and material wealth — I am absolutely driven to giving these projects my best performance on a constant basis —please accept my kind regards to you for providing me with a much needed opportunity to succeed."

Many times it is the simple which is the hardest to detect, my seminars have been described as magic and, to some extent, they are, but yet the truth is that it is simple. Take, for instance, the old adage, you can lead a horse to water, but you cannot make it drink. Countless times I have asked people, do they believe this adage and always they have answered, yes — what is your answer? because I can lead a horse to water and make it drink every time! You see I know the answer, it is so simple, and when I tell you the answer during a seminar you will wonder why you hadn't thought of it for yourself.

As the years have passed by it has meant I have been a wheeler dealer for a very long time, I have run many businesses and made, let me just say, much money. More than anything else these many years have given me the ability to teach others. I am no longer a young man, if you were being kind you would say that I am in late middle age, if you were being unkind then you would say that I am in early old age. It really doesn't matter which way you look at it, what really matters is that I have a terrific time teaching people from my past experiences and involvement in the world of self-betterment. I am about to offer you a place in a school, which we shall call a seminar to be in line with modern vocabulary, that teaches self-betterment-magic, something you were never exposed to ever before, a school of self-sufficiency which most people who make it in this world keep secret, a school which will teach you how to be flexible, move with the times and never be poor. If the word school worries you, please don't let it, I can assure you that the most difficult thing you ever learned to do in your life was to read and write, it took several years of schooling in your early life to achieve it. To learn the thought processes of a wheeler dealer are nothing in comparison to that which you have already achieved, I guarantee you can learn the principals.

FOREWORD TO THE SEMINAR

You are probably already wondering how many hundreds of pounds this service costs, before we proceed any further let me tell you that my one day seminar, commencing at 9.30am with all coffee breaks, full luncheon and services, is only £49.95. Should anyone think this is expensive, then I can promise you that anything similar run by the American operators which does not teach as much basic level self-betterment is ten times the price without refreshments. As a young man of say twenty years old, if I had seen an offer such as this I would have borrowed money from a neighbour to be able to attend. There are, of course, always those who will expect something for nothing, but I am sorry that if you come into this category I cannot help you, my suggestion would be for those looking for something for nothing, go and join one of the many multi-level propositions and come back to me when you become disillusioned and I'll show you something that really works. I am looking for people who don't want to be average, people who want to improve their lives and the status of their families, average people go nowhere, they live in nowhere land and at the end of a life doing nothing they are placed in a cheap wooden box. Remember, all those with a 'job' are people who are simply selling their life in small portions for relatively small reward and for the most part after spending a lifetime of doing so — all they have to show for it is age!

HARJAP SINGH, EBBW VALE — "Over the years I have bought plenty of business books and courses — but your booklet stands out and is very impressive — it's written by someone WHO REALLY KNOWS, a self-made multi-millionaire, that's the final proof that the ideas must be workable."

M. HUGHES, SUFFOLK — "CREATE YOUR OWN JOB IT PAYS BETTER has sent my mind off in a totally new direction which has given me absolutely loads of new ideas — I hope your ideas bring as much happiness to other people as they have me."

BARRY CHAPLIN, PRESTON — "Thoroughly enjoyed your seminar and was tremendously inspired by your attitude and business ideas, so much so that we decided to put your book 'Cash Money and a Profit Everywhere You Look' into immediate action."

JOHNSTON MURDOCH, BELFAST — "Firstly let me thank you for sharing your business opportunities with me and many others. Your books have been a great inspiration to me and my wife — was I relieved to see that you were offering no money games or other far-fetched ideas that would never work."

As I read through your book I immediately wrote out a cheque and sent off for a number of books which were of interest to me. I counted the days in between and when I received them they just

blew my mind. Everything was conceivable and not far-fetched and I just knew that they worked. — My life has took up a whole new meaning — when I first sent off for your publications I had just been made redundant — 'The Jet Setting Far Eastern Trader' and 'Armchair Wheeler Dealing', these two books are absolutely the best thing I have ever read. Let me finish with a big thank you for introducing me to your publications."

M. CAMPION, SAUDI ARABIA — "I am writing to thank you for CASH, MONEY & PROFIT, we are running this business from home and making a lot of profit."

LEE WOOD, CAMBRIDGE — "It's your fault — how can I manage on five thousand a week? — seriously Reg, I can't thank you enough. And I've only just started. The big time is yet to come!"

MR. T. OWEN, M.F.O., A.I.P.T.I., BIRKENHEAD — "Thank you for such an interesting and stimulating seminar."

JUSTYN BILLINGHAM, KIDDERMINSTER — "I have just finished reading your amazing book 'High Powered Wheeler Dealer' and must say I am very interested with it as a business venture — being a great admirer of yours having read several of your books."

My seminar is a school for heroes, I'll show you how I started with nothing, which may be your present position, how there was a time in my life when I did not have one penny and how I sold a little of my time and then proceeded to turn those pennies into pounds and pounds into hundreds and on into thousands, and more still.

How much money do you want? Because if you can tell me how much it is you really want - then I can show you how to get it — and that's a promise!

Most people just spend their lives complaining that they have no money — are you such a person or are you going to realise that the way out of your present trap is in your hands. During the seminar I will show you how to stay at home, wheel and deal and make a living — if that's what you want. I show you how to trade the length and breadth of the country and earn huge monies and more. I show you how to travel the world and earn a fortune, if you can handle it!

It's all in my unique seminar.

Right now, you have in your hand opportunity knocking at your door and it is up to you to open that door or sit back and complain about the noise, we knock only once, by that I mean, we send you this letter once only, we do not bombard you with further mailings, this is because anyone who needs constant pushing when an opportunity of this quality is available is not the material winners are made from

THE SEMINAR

This unique seminar, which is not equalled anywhere in the world, comes in three stages and has been tuned over the years so that these stages are exactly right for mental digestion. You are not coming along to a new, untried proposition, you are following in the footsteps of many people who I like to call my students, who, through their efforts and successes, have built even more into the day with their success stories added to my own.

STAGE ONE

It is during this first stage of the seminar where the true magic of the wheeler dealer is revealed to you — firstly we go through all the necessary preliminaries to commence the day, after which slowly and with the use of visual aids I reveal the magic formula which, when applied to business in the manner of a wheeler dealer, you will readily see how you will be able to make all the money you could ever want, or wish for.

This is done in the first part of the seminar because, as with all true magic, in reality it is very simple. If, for example, you were to ask Paul Daniels to explain his greatest illusion you would seriously be amazed as to how simple it actually was, when you know how — that is.

WILL YOUR THANK YOU LETTER JOIN THESE

DEREK ARTHURS — "Thanks for an inspiring day."

DAVID H DEVONALD, WARRINGTON — "Many thanks for an enlightening and educational seminar yesterday, I am glad I am not the only person who looks for opportunities everywhere, I know many people who may well be interested to meet you and attend your seminars — I would like to speak as a guest speaker."

R.A. DICKINSON, GRAVESEND — "I felt I learnt enough for me to approach the Japanese venture with some confidence — it was a real thrill for me to meet the great man."

CHRIS BURTON, SLEAFORD — "I continue to work full-time at 'Cash Money' and 'What's So Difficult' which jointly manage to pay me some £2,500 per month. For which you have my undying gratitude."

BEN HOOD, HOLME LACY — "Many thanks for your inspirational book 'The Jet Setting Far Eastern Trader' — it was you who opened my eyes Reggie to a world of opportunity and hope, and for that I thank you sincerely — it is so heartening to know that there are successful people who want to share their success with others."

M. NORTHFIELD, ONEHOUSE — "After buying copies of CASH MONEY and ARMCHAIR WHEELER DEALER you have opened my eyes to these very successful businesses."

MRS. P. WELCH, LEEDS — "Please supply me the full selection of your nine books, I want to send them to my son in America, I know he will benefit from them greatly. I know this from what you have already done for me."

D. DYSON, LIVERPOOL — "Nobody could ever conceive the content of your seminar without experiencing it first hand, great stuff."

More than anything, it is important that you understand the formula first so that you will then be able, for yourself, to see how you - as a wheeler dealer — can apply it to any of your future operations. I have been conducting these seminars now for quite a number of years and it is the rate of success of previous students that proves this format of seminar we adopt is the most highly productive.

STAGE TWO

This part of the seminar is not quite so easy, for me that is - part one has shown you the treasure map — almost the fairy granting you three wishes — the goose which will lay the golden egg. The question now becomes, what are you going to do with this knowledge.

In part two of this seminar I undertake to show each one of you in turn what the formula can do for you in detail, employing visual aids, we will look at your life to come.

This section of the seminar is, of course, much longer than stage one, mental thought processes and thought patterns will be shown to you, pencil and paper will be indispensable to you at this point — in fact note taking equipment is a must for the entire day — please note recording equipment is not allowed — this entire seminar is copyright protected.

During this section of the seminar a 100% guaranteed proven plan will be given to you, a plan which for over a hundred years has been proved to work by all the world's most successful people, a plan which is the single topic of books whose purchase price is more than the cost of this full seminar.

This plan, coupled with the secret formula from part one, will firmly place you in possession of the world's closest guarded secret when it comes to individual wealth creation.

By approximately 12:30 lunchtime I will have opened your mind to possibilities which will hold you in a state of awe to the future which can be yours. To give you a rest, time to digest that which has been revealed to you, we have lunch break.

PART THREE

After lunch, part three takes up the entire afternoon — you now know the formula to make money and you have some ideas of how much you are going to earn — the question now becomes, which business(s), which vehicle(s) are you going to choose to do this, therefore, the reason we take all of the afternoon period, the longest part of the seminar, is to get the questions right. We examine business opportunity after business opportunity (and no rubbish).

SUCCESS AVAILABLE TO ALL WHO COME AND LEARN

MR. G. PARK, DUNDALK — "I am glad you can communicate well even with deaf students of yours. You are a good man. I look forward to becoming your student — God bless you and keep you safe always."

ROBERT McFARLANE,
STAFFORD — "I am still right behind you Reg and will never forget what you have done for me."¹¹

MICHAEL BLAKELY,
SUNDERLAND — "I am grateful to you for a most enlightening day — indeed the force is with me — my future will indeed be wonderful — I have never held anyone in such great respect — fond regards."¹¹

MICHAEL KELLY, CO. DERRY — "Having read your literature, have a very real sense that my long search for a genuine opportunity could soon be over."

MRS. B.E. WOOLLEY,
ALVASTON — "I received your booklet today and am very impressed and interested."

J.L. TURNER, TAUNTON — "It's hard to envisage such a large business can be run from home by one person as your book 'The High Powered Wheeler Dealer' describes, but I can see the viability of it and I shall do it."

J. PAUL, SHEFFIELD — "After yesterday's most inspirational day, I have to write and thank you for the truly excellent seminar and the whole day which I enjoyed tremendously. It was a great pleasure to meet and discuss opportunities with you in such an informal manner. Your achievements are a shining example to us all."

PETER R. EDWARDS,
STOCKPORT — "I am very much taken by your approach to business, and your generous and sharing attitude to life."

PAUL DEGRAFT-JOHNSON,
NOTTINGHAM — "I received a parcel from you on 23 of this month, may I say I am extremely impressed by the speed it took to get to me, it arrived only two days after I sent the order."

R.L. THOMPSON, WEMBLEY — "After reading the brochure I was shaking with excitement because my instincts told me at last I have found somebody who would finally show me the way to succeed."

E. STACY, BIRMINGHAM — "Read your literature with great interest — your booklet makes one sit up and take stock of one's life."

P. FISHER, LONDON — "I wish I had found you twenty years sooner but 64 is not too late."

We examine in detail my many businesses all of which were very small capital start-up and all of which I took a fortune from, inter-spaced among all this we look at the now many businesses of previous seminar students. We occasionally have a guest speaker in the afternoon drawn from the ranks of the Reggie Gee prodigies.

And, if this is not enough there is still more, another truly magic formula, but this one was invented by me and has been copyright protected by this company.

This formula has many names, it is a motivational formula and it is the most powerful, problem-solving formula of all time, with the correct application of this formula virtually any business is guaranteed success and it was this formula which, in only a matter of a few seconds, solved the problem of how to lead a horse to water and make it drink. You have, no doubt, heard of Einstein's theory of relativity and his ensuing formula of $E = MC^2$, well let me tell you, and I mean it, Einstein could not have found his formula if he had not been using my formula to do so. Every successful man and woman in the world of all time has used my formula but did not know they were doing so, these people stumbled onto it by chance and used it unaware of the thought patterns being employed. I have become the first person ever to put this success onto paper as a formula which can readily be demonstrated by simple visual means to be easily understood by all.

I, myself, discovered it by chance when my son Stephen one day asked me to write down my formula for success which had given me the ability to be so successful in such a wide variety and large number of businesses. When I picked up a pen and first showed him why so many people went wrong and failed and then turned the prospect round in only a few seconds, I realised I had just put onto paper in only a few moments the world's most powerful wheeler dealer formula of all time.

Coupled with endless business ideas, this formula will be yours — success should now be automatic.

THE END OF THE DAY

At the end of the seminar, providing you have listened carefully and taken detailed notes, you should have at the very least the following:

- the magic formula of earning money;
- the personal plan of how much you will earn — together with instructions on how to build this plan and create for yourself the future you want over the next thirty days;

SUCCESS AVAILABLE TO ALL WHO COME AND LEARN

CHRIS BOLGER, SOUTHALL — "I think with fondness of the very interesting and illuminating two visits to your house. We enjoyed it very much and learned a great deal. Thank you for that as well."

PHILIP ROWLEY, LEEDS — "Thanks very much for the seminar yesterday, I found it most informative and stimulating. Even as a salesman of 25 years experience having sold most things in my time, I still believe that it is vital that I go on seminars like yours to get new ideas and to recharge my sales batteries. If you want a guest speaker I'm available."

DAVID HOWSEMAN, BLANKNEY — "I was very impressed by your speech — as you say — there's nothing difficult about earning money when you know how."

M. FIELD, LUTON — "Thank you for sending me your book. 'Nothing Difficult', I must say that every line of it is true — although I'm 63 years of age I've no intention of sitting on my rump if I can do something about it."

MR. C. HODGE, CHARD — "There should be a queue a mile long for your school — what dynamic ideas and presentation, thanks and good luck."

S.H. PRICE, BROUGHTON ASTLEY— "Firstly I'd like to thank you very much for all the help and good ideas that you gave me on our last meeting. The auction feeding goods have been going like hot cakes! — looking forward to the not too distant future when I am able to write again telling you of my success."

KIERAN HEFFERNAN, CORK — "Just a personal note to tell you that I am delighted with the efficient manner of your staff."

DONALD STONE, WIMBOURNE — "Congratulations on the quality of your information, it was most appreciated after the usual rubbish that comes through the letter box."

J. NEIL, BEDFORDSHIRE — "I am delighted to correspond with you once more — to request another book from you. I can't tell you how excited I am about practising your wealth creating strategies — take good care and expect another letter from me in the very near future."

K. COOK, DOUGLAS, I.O.M. — "Your books are terrific, I shall book to attend the seminar as soon as I can make the journey."

The problem solving motivational formula which has brought me and countless others from nowhere — to everywhere we want to be; insight on the many businesses and goings on of the numerous Reggie Gee students you follow.

This, as I said above, is the very least you will gain from a seminar — there is much more, but that is on a personal level as shown from my many students' letters which I receive as unsolicited testimonials.

The only comment I would make regarding this seminar is that the sooner you attend, the sooner you will join the high-earning students I have already created.

BRIEF DETAILS OF NOTABLE PREVIOUS STUDENTS

FRED ROBERTS attended one of my very first seminars, he was a quiet man and a little withdrawn. The seminar opened his eyes and mind as nothing had ever done in the past, for weeks afterwards everyone he met he told of his experiences. His wife said of him that he was a changed man, very much for the better and far more positive. Fred immediately signed up for one of my special business courses, learned well, took careful notes and proceeded to zoom away to high earnings. The business opportunity he chose brought him an enormous amount of world travel — Europe, the Middle East and the Far East. Fred often telephones to let me know of his successes and to comment on how his previous so-called friends are now falling by the wayside because he has out-distanced them in sheer wealth. Each and every year I receive a Christmas card from Fred where he outlines the best deal he has done for that year, the last one said simply, "Reg, £5,000 into £25,000 in Russian art in one deal — what was difficult about that? Nothing!, proving yet again that There's Nothing Difficult About Earning Money When You Know How', that is." Fred's even picking up my sense of humour.

GREG BULMER is a young man in his early twenties who has just attended three years university study taking business courses. First of all he started by purchasing my books before attending a seminar, he eventually bought himself the full set. When we finally met at a seminar he said to me "I have learned more from your books in a few weeks than I learned in an entire three years at university taking business studies." Currently this young man is working with two of my projected business opportunities and is making excellent progress.

SINGH BAHRJ was a young Asian man working part-time as a London Mini Cab driver and struggling to earn a living when he attended his first seminar, he sat spell-bound scribbling notes all of the time. In the weeks to follow I received numerous letters from him regarding his progress with my teaching. Within only a couple of months he was writing to tell me that he was earning £500 per week part-time with just one of my opportunities, since then he has started employing others to work for him on yet more of my projected opportunities. Some of his comments in letters which I have received are so complimentary, it's almost embarrassing. Here was a man with no future who has now found he can have anything upon which he sets his desires.

MRS. L. TWIGG, AYLESBURY —
"I would like to take this opportunity to thank you for your kind hospitality, I felt immediate benefit — I have taken a few days to ponder over many aspects of the seminar — I would like to say that with your seminars I truly believe you are holding in your hand a great success formula."

J. MURDOCH, FINAGHY — "I have enclosed a cheque for four of your publications — what sold me to these was the fact that you have worked at them all and look where you are now.

You seem the most genuine man I have ever dealt with regarding business opportunities."

COLIN SMITH, SUNBURY — "I am most impressed with your other publications, and indeed I am currently putting two ideas into operation with great results — dealing in oil paintings could be my third!"

GREG NUNES, LONDON — "I attended one of your wonderful general courses last year on setting up a business and becoming a millionaire. To say I was inspired was an understatement. It was so good, I went home on clouds feeling literally anything was possible.

I know you know what you're talking about. You've done it. You've been there.

I know you have a lot of experience, and here's one pretty determined lad who's willing to listen to you without shoving my head in the clouds! Many, many thanks."

BERNARD BRANSTON, CLIFTON — "I totally agree with what you say about people working hard but not making money — it seems so much employment is wasted when every worker has the potential of making a fortune — I would really like to see the poor get richer — the Lord bless you — and thank you for inspiration."

R.T MACFARLANE, STAFFORD — "I enjoyed reading your book it does put a different angle on things — and how, it already has started to change my life, it is certainly magic."

JOHNKENDREW, MORLEY — "Thank you for your very instructive seminar, you held my attention the whole of the time. It takes a lot of doing to stand in front of a class for that length of time and still be interesting and enthusiastic. You finished at the end of the day giving me the distinct impression that you had a lot, lot more that you would have loved to teach us. I'm going to embark upon another venture and with the aid of the Reginald Gee 3 Ds. I am confident of success.

Your books, too, are very good. I've read four of them. But to get the best from them they have to be read and re-read as you say. I am impressed by the quality of the paper and print."

LEEDA TWIGG, a very attractive lady in her early thirties from the south of the country who had spent many years leaping from one multi-level marketing proposition to another all in the hope of achieving the impossible dream, she must have virtually tried them all when she came along to my seminar. During the day it was almost as though a veil of despair was lifted from her and she began to see the sense of genuine business opportunities designed for individuals and run by individuals as opposed to trying to recruit others into worlds of fantasy. For many months after her seminar attendance, we received letters from Leeda noting her progress, bearing-in-mind that she is a married lady with a young family to bring up, but even so we had genuine opportunities to suit her needs.

DR MARK EDWORTHY came along to a seminar somewhat reluctantly, he had a fantastic job and was already earning many thousands of pounds a year. It wasn't money that Mark was looking for, but independence and freedom with the same earning capacity that he was already receiving as a tied employee of someone else. Being a very intelligent man he grasped the meaning of the seminar immediately and we lifted his spirits almost to the moon, at last after all of his searching he had found what he was looking for, a business opportunity which would provide him with at least the same income. For a while he became one of my best disciples, recommending me to all and sundry, the following August 1st he came all the way from Derby to show me his new, that day, XJ6 Jaguar which he said had been made possible only by my teachings. Mark continues to increase his business and I am happy to list him as one of my most successful students.

JOE STEVENS, I know Joe will not mind me mentioning this, but when he came along to his first seminar he was not a young man, in fact, his first pension cheque was only around the corner. Joe was not looking for some big business or other, nor was he looking to make a fortune, he wanted something that he could do in semi-retirement, not too difficult that would give him some joy, excitement and an additional income. We, of course, found exactly what Joe was looking for without difficulty. So happy was he with the whole aspect of my teachings that he volunteered to become a guest speaker at the very next seminar. Joe had seen a lot of life, having worked in insurance for almost forty years, and he appreciated very much what it was, and is, that I am trying to do for others, Joe was happy to become apart of this. Besides operating his own business, Joe became guest speaker at my seminars for almost a decade.

TED BRISTOW, taking into account my sense of humour, this young man came along to one of my seminars smartly dressed and obviously was not what he looked. I have already said this young man, in actual fact his appearance was that of someone in his late 50's, but his whole demure spoke of considerably more age. Talking with him at the break time I was amazed to discover that at this time this 'young' man was actually seventy-three years old. At first I couldn't believe it, how can someone be so old and want to attend a motivational business opportunity seminar. We chatted further and I found that he had been purchasing motivational books since he was a merchant seaman from the age of nineteen years old and had in his collection every title known to man and yet none of them had done him any good. He listened attentively at the seminar and I spent a little time with him personally as I will with anyone who needs help. He finally, after more than half a century, realised where he was going wrong.

OUR SUCCESS RATE WITH STUDENTS IS OVER 80%

STEPHEN PRICE, LEICESTER — "The cheque enclosed, is itself part of the profit, that I've been able to make on numerous little deals, thanks to putting into practice what I learned at your recent seminar. Savings made also in both time and money have been considerable. Thanks!"

FRED ROBERTS, LINCOLN — "Thanks again for all your kind help and advice. I was joking with Doreena the other night and I said I'm starting to go like you — well, I've been looking into what goes on in those bath houses in Tokyo. With very best wishes, Yours sincerely Fred."

JOHN KREY, BIDEFORD — "Let me thank you for a very interesting and worthwhile day — my brain is now much more in tune and aware of what is going on around me re: business opportunities."

M. LAWTON, MANSFIELD — "I can see now the world of business from which you have made your fortune, the seminar has opened my eyes almost as if I were blind before."

A.C. O'DOHERTY, WIDNES — "Please forgive me. I only wanted to see what reaction I got from your company, to further convince myself that you are legitimate. The material you sent to me was by far the best I have received to date. Very professionally put together and presented. Please find enclosed my order and remittance."

MRS. H. HOPWOOD, CLEVELAND — "I am pleased to see your business plans also cater for us ladies, thank you for that."

NORMAN REDDEN, WOLVERHAMPTON — "With the benefit of your seminar and the use of your books I too will soon drive a Rolls Royce."

M. BROCK, DARLINGTON — "I can see that not only will your idea earn a great deal of money, but also it will make mean employer which is something I would enjoy."

D.A. CARR, DOVER — "Coming to Huddersfield to attend your seminar on 8 August has proved to be the best journey of my life to date."

He grasped one of my business opportunities more suited to someone who requires to lead rather than partake in the heavy personal work and his future was finally assured. I have heard since from Ted on many occasions and he now has the happy life-style that has taken him so very long to find.

PAULIE WELCH, this lovely lady came along to a seminar wearing a mink coat and with almost as many diamonds on her fingers as I occasionally wear. It wasn't money she was looking for as much as something that would occupy her time, be in line with her character and fit in with her already up-market life-style, this was no problem. We introduced Mrs Welch to a clean and up-market business opportunity of a sales nature which we knew from the word go was exactly right for her. I don't suppose Paulie would mind me disclosing to you that she is no longer a young lady and, therefore, is not looking for something to work at every day. The opportunity we found for her, she conducted on only one day per month and earned more in that single day than the so-called average working man earns in two months. We keep in regular contact and she is definitely a friend of the family.

KEVIN HOUSE, this young man, and this time I mean young man, is in his late twenties from the south east of the country has so much get-up-and-go it's unbelievable, he just didn't know in what direction to channel his get-up-and-go. In actual fact, he was already made of the very best material that any of my seminar attendants could be. After a seminar he attended several of my special courses and we put him on the road to riches. He now starts up businesses, builds a successful concern which he brings others in to operate. I have no doubt whatsoever that this young man will be worth several million pounds before he is very much older.

JULIE HATTON is a very attractive young lady somewhere in her twenties who was well fed-up with the nine to five rut and wanted a life with travel, excitement and adventure. I introduced her to one of my more elite business opportunity plans and she jumped on a jet, went round the other side of the world and proceeded to do the business. This young lady has certainly got what it takes to become independently wealthy, she does not rely on any man or lean on one, although I believe she has one kicking about somewhere. When she made her first seminar booking, she made it in her own name and attended by herself as, indeed, many ladies do. On commencement of her business, for extra tuition and to see fully the opportunity she was already experiencing before her, she attended a special class. I am sure Julie must be well placed on my list of self-starters.

ANDY CONWAY's story is almost identical to that of Kevin's above, again a young man with personal belief in himself and his abilities and a man who knows that if he wants to get anywhere in this world, it's up to him to go out and find it and not to wait for someone handing it to him on a plate which most likely will never happen. On one occasion when Andy visited me personally, I was telling him about driving my Rolls Royce Convertible round Huddersfield handing out seminar cards and everyone just looking dumbfounded, he said to me that if I'd done that to him, he'd have leapt into the car beside me to find out how I'd achieved not only the ownership of such a fine car, but everything else besides.

MANY STUDENTS KEEP IN TOUCH WITH US FOR YEARS

D.S. BHARJ, THORNTON HEATH — "As you already know Reggie I am working part-time on your plan 'Cash Profit and Money Everywhere You Look'. You will also be very pleased to know that I have just earned £535 nett profit! with my fourth advert thanks to you.

You know something Reg, I just don't know how to thank you for showing me how to earn a great deal of money! I am very, grateful to you and always will be for the rest of my life! It's a dream come true! and I sincerely mean that!

You know something else Reggie, my ambition have always been to be a millionaire! One day, and I have always prayed to the Almighty God to introduce me to a millionaire and in your case a multi-millionaire who could show me the way to become one. I mean all that I say from the bottom of my heart. I know that if I follow your footsteps I will definitely become a millionaire!"

GREGORY PAUL, LONDON - "I was fortunate enough to attend one of your seminars a few months ago on starting a business. It was very inspirational, and has put a lot of fire into me! I realise you were the only one I could turn to for clear advice."

JAMES O'NEILL, BEDFORDSHIRE — "Wow! At last, I've been meaning to write to you for over a week now to tell you how impressed I am with your material about making money, I am most keen to enrol as a student of financial success in your following. Your philosophy established rapport with me instantly!"

M. EGGLESTON, LEEDS — "I attended one of your seminars last year and I was very impressed by what you had to offer."

W. AINSWORTH, BRIDLINGTON — "You speak my kind of words straight to the point no frills — when one seeks to have a better lifestyle through one's own ideas, and effort, those less fortunate seem to class you as a fool, an outsider. I need your help, it will not change me, it will assist me on the highways and byways the road to my first million."

PC. RICE, DERBY—"I have learned a great deal and am now using this knowledge to my advantage."

TONY HOOPER, BARNSELY— "May I say how much I enjoyed your seminar."

Andy fully realises that I am a man who has come from nothing, who lives in a house worth several million pounds, has a collection of cars and goodness knows how many more trappings of wealth, and he is not the least bit jealous, but he is envious and that's the whole point; jealousy gets you nowhere, it is the most negative of all emotions, but envy can be the motivator which will make you strive towards self-achievement and it is just such self-achievement that Andy, who is not yet thirty, possesses.

STEPHEN PRICE, here is a young man's story that many of you can relate to in some form or another. Stephen's family have been farmers for generations and his parents were absolutely adamant that he should work on the farm and join them to eventually become the owner of the farm. Stephen hated the idea, he felt trapped, did not know which way to turn until he saw my advert offering a solution. When he attended his first seminar he was about twenty-three years of age, very shy and frightened of his forced upon projected future. The seminar opened his eyes and gave him, for the first time ever, hope. He took up several of my business opportunity books and much to the dismay of his parents proceeded to work with the contents. In next to no time at all he was earning for himself more than his parents could possibly afford to pay him working on the farm. Since then he has attended several specific classes and we have become particular friends. He is ticking off his list of goals at a superb rate, has already travelled all round the world and bought his own Jaguar XJS convertible. The family will have to look for someone else to work down on the farm because it sure won't be Stephen, he couldn't afford to take such a reduction in salary.

DAVID AND EDWARD WALKER (identical twins) in their late twenties, I couldn't tell them apart, not even in their mannerisms. They are both go-getters and were working together in unison just as they look. They attended a seminar, sat side by side, made careful notes and selected exactly which business opportunity they were going to take up. From their very manner I knew from the beginning that these two young men were going to be successful, but just how great a success we could not have known. Their hearts and minds working as one, they proceeded to work the business opportunity, build up the location they were operating, sell it out and go and do another. They never told me exactly how much money they have taken from the plan, only will they say that they have turned over hundreds of thousands of pounds. It set them on their feet and gave them a start in life early enough to be beneficial for the rest of their lives.

LEE WOOD, it is hard with Lee to know where to place him on my list of best students, certainly he deserves to be very high up. An unassuming, almost retiring looking man with a personal dynamo that remains hidden from the view of most. He attended a seminar and virtually didn't say a word, he listened, observed and made notes. He purchased the book titles for which he had preference and left as, indeed, many do. It wasn't until I started receiving his letters in the weeks and months afterwards that I was to realise that this man in his mid thirties was going to go to the top of my listing. He mixed together two of my business opportunities, most of the ideas in my books can be applied within themselves to create a multiple business and this is just what Lee did. First of all I received letters from him informing me that he was earning a few hundred pounds per week free and clear, then only a couple of weeks later he'd shot this figure up to well over a thousand and the last letter I received from him was written with a remarkable reversed sense of humour whereby he told me that he was not only earning £5,000 a week and it was all my fault, with the letter an order came for another book and a comment that he hoped his cheque would not bounce. What a guy. I wish him and all self-starters all the very best in the world, it's those who are stood on street corners with their hands out that I've no time for.

BARRY POTTON attended a seminar together with his pretty late teenage daughter Emma-Jane. He confided in me that he had been made redundant, had no hope of finding a job and had been in such a position for a couple of years. Debts had taken virtually all of their savings and were still mounting up. He had spent countless hours in search of a job writing letters, attending interviews, etc. etc. but had given no thought to self-employment. My advert was the first trigger in his mind towards the fact that there could be at least a ray of hope in some form of self-employment if that project could be of a low capital start-up nature. I will let Barry's letter, which I received immediately after the seminar, show you how we opened his eyes and, indeed, could do the same for you, he wrote:

“Thank you! and Thank you! a million times more, what a wonderful day the 14th of August was for myself and my daughter Emma-Jane, you, in this one day, opened our minds so wide we no longer feel the same people before this seminar, the whole world has changed from dull, hopeless, no chance planet to a ball of solid gold, you have, in one day, taught me in particular more about life's opportunities available than all I have learnt in over 50 years of life, Mr. Gee, you are a ONE OFF!”

NO INDIVIDUAL SEMINAR GIVES SO MUCH

TED BRISTOW, LONDON — "My thanks to you for what you taught me — I have already started to move — cheers."

KAZ DOMAGALSKI, FRIZINGHALL — "Just a few words to first of all thank you for a brilliant 'brainstorming' day."

E.B.R. JONES, STRATHCLYFE — "Being in business for the first time is quite a thrill which has to be experienced. As you can imagine I have spent a lot of money and bought several different schemes during the past year. The majority went into the bin. Yours is the only scheme that we have put into operation, which was the best one that we received, by far."

Thank you for giving people the opportunity."

W.T CLEMENTS, CO. DOWN— "What you have achieved is truly remarkable and you're only beginning!"

FLT. LT P. O'FLINN, OMAN — "Your well-deserved success as an entrepreneur serves now as a shining example of what a person with the determined attitude can achieve, especially to me! I really do have the desire to 'earn a great deal of money'."

A. THOMAS, SHEFFIELD — "I found your manual 'Cash Money and a Profit Everywhere You Look' one of the most interesting manuals I've read. I haven't just read it, but I am acting on it too!"

REVEREND ADRIAN, BUTT, NOTTINGHAM — "Thank you so much for a great day when Ann and I attended your seminar, the day really set us thinking about the future and both of us see the necessity for change, if we are really going to make anything out of the remaining years of life — I cannot thank you enough for giving Ann and I the opportunity to begin a new life — it all looks most interesting and I can hardly wait to begin — it is all very exciting thank you for what you are offering."

MICHAEL A. LLOYD, BLACKPOOL — "Sir, Book: Cash Money and a Profit Everywhere You Look, I received the above booklet today — please sent any details of other publications you may have — as your information seems very sound to me."

J. BEAUMONT, WINCHESTER — "Your teachings have so completely changed my life for the better, it is impossible to find the words or deeds which would thank you sufficiently."

IN BRIEF

The simple story is that the Reggie Gee school for winners is not about making me any richer than I already am, it is to bring to you tuition of a world which exists out there that can be yours, it already is if you can find it and the seminar is all about the finding of it. There will be those receiving this pamphlet letter (now an e-book) who will not believe it and that is sad because it could help them, but no-one can please all of the people all of the time, but what I can tell you is that every single person ever to attend my seminars has been pleased and that's the nearest I can get to perfection.

To this date I have done more to promote private self-employment than any other individual, group or even the Government and my success rate with those attending these seminars and classes is near perfect.

Returning now to the present day and the replacement of Reginald Gee Snr Limited with Knoll House Interforum.com

The original of this now e-book detailed all my publications of the time which are no longer in print but are being made available as CD's, cassette tapes and also DVD's together many more publications and also sound and vision recordings of past successful students of the organisation together with updating and the modernising of the plans which now include Internet based opportunities and also online auctions and the like.

The passage of time since the original of this e-book has not diminished it on the contrary the opportunities for the self employed and those looking to work from home or simply for themselves has expanded enormously to the extent there is now TV channels based on original ideas taken from the publications of Reginald Gee Snr Limited and as Knoll House Interforum we offer even more as a result of being so far ahead in this field of which you can become a part.

For more advanced students the final chapter of this now e-book in its original printed form offered advanced classes and personal one-on-one tuition with its author. This service is still available today; to contact us in regards to it prospective students should e-mail us at knoll_house@hotmail.com entitling such emails as "Personal advance tuition". Please bear in mind this is our most advance service and is subject to availability and student level.

NO INDIVIDUAL SEMINAR GIVES SO MUCH

GIL STAVE, LONDON — "I would like first to thank you for introducing me to the books — simply marvellous books, which open my eyes to realise and observe what is going on around me. They also opened up my mind to ideas and concepts which I would not take in the past. I am very happy to read them."

JOHN WILLIAMS, LONDON — "In February this year I sent off for your booklet 'Japanese Antique Buyers', in March I visited you and you told me a lot more valuable information. In the April I made a trip to Japan, I covered my expenses and made a profit — again learning a lot and I would like to say many thanks and look forward to seeing you again shortly."

S. MAIR, BRENTFORD — 7 am very impressed by your talent — I strongly believe it's a strong willpower 'the action man', God bless you, please give me the extra drive to succeed, thanks."

IN CLOSING

This e-book not only brings to you the services offered for personal wealth creation by Knoll House Interforum but and more importantly the successful medium offered before it by Reginald Gee Snr Limited. The result now being that the business systems and studies originated several decades ago are now proven even further than by only the originator of the schemes and are now practiced worldwide.

Many of the writers of the pages of unsolicited testimonials no longer live at the address shown. A huge percentage of them have now moved up the property ladder as a result of their much larger incomes. At least two of the writers now live and conduct business in Australia, others in both the USA and Canada and many others whose success stories we look forward to bringing you as a registered member of Knoll House Interforums have holiday homes dotted around Europe and the Mediterranean.

In short you don't need any form of licence or permit to become wealthier than you are at present. You simply need a better paid incoming figure for the amount of time you give over to work or employment. There are no restrictions on the amount you can earn other than those you impose on yourself and if you take only a little time to think on this and realise its truth then surely you must move forward and give thought to what you want to do about the situation, or to put all of this another way for your consideration think upon this...

Experts estimate that this earth upon which we live is approximately 4.5 billion years old, inconceivable isn't it but just take a second to think that in all that time it has only ever moved forward and not as many peoples lives do move back or even stopped. Just like the planet upon which you live the only true direction is forward and in the final analysis that is what this e-book is all about offering you the way forward to those with the courage to reach for it.

your Exchange & Mart advert — I'm
glad that I did — thank you."*

*MRS. C.A. BELL, DUNDEE — "It
has only been six months since we
attended the seminar and your
plans are earning us the best
income of our lives."*

*L.H. NORTHCUT, BURY-ST-
EDMUNDS — "All wonderful stuff.
Thank you for this opportunity, just
what I have been waiting for
sometime now. Your presentation
sold me at once, up to now, this
year, I have had over 100 different
business opportunities offered, the
usual MLM/get rich quick/sew and
grow methods all of which went
straight into the bin. You are the
answer to my creative visualisation
of growth in wealth leading me onto
what I really want to do - many,
many thanks.*

*Sir, it is not many people whom
take a personal interest in their
clients."*

These are just brief extracts from the multitude of testimonial letters we have received over the past decade (1980s), many letters are far too long to print running into several pages. It is gratifying to know that my original aim of assisting others has been so successful. In fact, I can go further, my success has been such that not only have I received terrific applause by letters, I have also received numerous gifts from many of my grateful students. To mention just two, Mr. P.C. Rice showered me with a multitude of Rolls Royce aircraft badges and Mr. Barry Potton sent me a variation of Marilyn Monroe posters. My wife receives bunches of flowers quite regularly from grateful students. I find it all a very rewarding situation and hope that I can continue to help many more in the years I have left to come.
